Presentation

- A. The objective of “Bucket of Junk” is to create a sculpture using only the items in the bucket. A sculpture is defined as a three-dimensional work of art that can be viewed from 360 degrees.
- B. All sculptures must be submitted and presentation ready to be accepted. Sculptures not meeting this requirement may not be judged.
- C. Judges must know where you used each item in the bucket. Please note, you must use each item. You do not need to use the entire item in the sculpture but there must be enough used to make it visible. The only optional pieces in the bucket are the packaging from different items i.e. cardboard packaging, plastic bag, etc. However, if you want to use it, you may. They are just not mandatory.
- D. You may not add any additional items to your sculpture. Only the items in the bucket are permitted to be part of your sculpture. The bucket may not be used as part of the sculpture. There will be a list of contents in each bucket. Please indicate on the list where each item was used. Please return this list completely filled out when you drop off your sculpture.
- E. You can cut, sand, glue, weld, bolt, fasten, bend, shape, curl, staple, and paint these items to make your sculpture.
- F. You may connect your entry to a solid base for stability, if needed. The base CANNOT be part of the sculpture. The base must also be smaller than the sculpture, and it is NOT to be painted. The base will not be considered part of your sculpture so it will not be judged.
- G. The bucket and contents list must be returned when you bring the sculpture to the fairgrounds for display. The bucket is not to be used as part of the sculpture.
- H. Any sculpture larger than 24L x 24W inches will automatically be disqualified.
- I. Your sculpture must be completely finished when it arrives. No painting, construction, etc. will be allowed.
